Notes:

(1) The table counts number of individuals into employment from NDYP and ND25plus. On this basis, a ND participant on either programme is only ever counted once as starting employment from that programme. If a participant has a sustained spell of unsubsidised employment after having had a sustained spell of subsidised employment, then the unsubsidised employment always takes priority.

(2) A job from which the participant does not return to New Deal within 13 weeks. This includes jobs in which participants have been employed for less than 13 weeks, but have not yet returned to New Deal.
